

Replacement EAS Paper and Printer Ribbons

The EAS printer uses 2-1/4" cash-register/calculator non-thermal paper in rolls of 25' or less. This kind of paper can be found at most office supply stores including Staples and Office Depot.

Note: Rolls of this paper are typically found only in lengths of 85' or greater. You will need to make this into a smaller roll in order to use it with the EAS printer. Short rolls may be available by special order.

The ribbon used in the printer is an Epson Cash Register ribbon, model ERC09B. This ribbon can be found at most office supply stores. Staples offers this ribbon as item number 537001 and Office Depot offers this as item number 651463.

Note: If these item numbers are no longer current, a compatible ribbon should be available.
