

Web Interface Flash Card Installation Instructions

To install a replacement Web Interface flash card:

1. Unplug the Web Interface and remove the top cover.
2. Remove the old compact flash card from the Web Interface and place it in the included envelope for return to Burk Technology.
3. Insert the new compact flash card.
4. Replace the top cover and apply power to the Web Interface.
5. Refer to the current edition of the Web Interface User's Manual to reconfigure the Web Interface. If you need a replacement copy, please visit www.burk.com/support.
