

Release Notes

Plus-X GSC Adapter firmware version 1.0.9

Scope

This document describes the changes in Plus-X GSC Adapter firmware from version 1.0.6 to version 1.0.9.

Changes from firmware version 1.0.7 to version 1.0.9

New Features and Enhancements

The GSC Adapter A and B relays can now be configured as either Raise or Lower:

It is now possible to configure the A and B relays on the Plus-X GSC Adapter command channels as either “A is Raise / B is Lower” or “B is Raise / A is Lower” to easily accommodate either wiring convention.

Changes from firmware version 1.0.6 to version 1.0.7

Resolved Issues

New MAC address range is now supported:

A new range of MAC addresses has been accommodated for production of Plus-X GSC Adapters. This change has no user impact.
