

Product Update

AutoPilot® Version 4.4.7.37 is now available for download.

AutoPilot software version 4.4.7.37 is now available. Changes from version 4.4.7.22 to version 4.4.7.37 are highlighted below. Detailed descriptions of these changes can be found in the Release Notes document included in the AutoPilot software download package.

New Features and Enhancements

- Warp Engine dialog box now allows selection of high priority meter channels.

Resolved Issues

- Web page objects in Custom Views now operate correctly.
- Channel Mute states now automatically synchronize with AutoPilot.
- AutoPilot cache files for ARC Plus sites now update properly.
- The AutoPilot installer now correctly initializes local database files.
- The SQL server database template has been restored.

To install the new software:

- 1) Visit www.burk.com/downloads and select the support page for AutoPilot.
- 2) Download the zip folder titled AutoPilot 4.4.7.37.
- 3) From this zip folder, extract and save files "Release Notes AutoPilot 4.4.7.37.pdf" and "AutoPilot_4.4.7.37.exe".
- 4) Launch the AutoPilot_4.4.7.37.exe file to install the new software version. It is not necessary to uninstall previous versions of the software before executing this file.
