

Product Update

AutoPilot® Version 4.4.7.62 is now available for download.

AutoPilot software version 4.4.7.62 is now available. Changes from version 4.4.7.37 to version 4.4.7.62 are highlighted below. Detailed descriptions of these changes can be found in the Release Notes document included in the AutoPilot software download package.

New Features and Enhancements

- Reports can now be scheduled by month.
- Test email button added to the Tools > Options > Email dialog.
- Sites in the Resources panel will indicate if alarms are muted.
- New Jet Action added to open custom views in full screen.
- Speech phrases for Jet Flowcharts can now be configured in Jet Designer.

Resolved Issues

- Logged data view is now available.
- Jet Designer now accepts only integer values for If Memory and Set Memory actions.
- Invalid characters in Jet Flowchart filenames are now automatically corrected.
- Custom views containing charts now load quickly.
- AutoPilot virtual channels now evaluate fixed point numbers properly.
- Active green command button text now has better contrast.
- ARC Solo commands no longer appear inactive.
- Tower Light Failure alert dialog box information now stands out more clearly.
- SNMP SysUpTime now displays correctly after 365 days.
- Archiving of logged data from the warning pop up now works properly.
- Improved error messages on connection failures.
- Only one copy of a custom view can be open for editing at a time.
- Text has been added to the body of scheduled report emails.
- Click action to start an external application now works properly.
- Old ARC Solo alarms are no longer retransmitted when using warp engine.
- State changes on status channels are now tracked over warp engine.

To install the new software:

- 1) Visit www.burk.com/downloads and select the support page for AutoPilot.
- 2) Download the zip folder titled AutoPilot 4.4.7.62.
- 3) From this zip folder, extract and save files "Release Notes AutoPilot 4.4.7.62.pdf" and "AutoPilot_4.4.7.62.exe".
- 4) Launch the AutoPilot_4.4.7.62.exe file to install the new software version. It is not necessary to uninstall previous versions of the software before executing this file.
