

# Release Notes

## AutoLoad GSC software version 1.2.35

### Scope

This document describes the changes in AutoLoad Plus software from version 1.2.32 to version 1.2.35

### Resolved Issues

**AutoLoad GSC now operates correctly on Windows 10 computers configured for languages other than English:**

AutoLoad GSC running on a Windows 10 computer configured for a non-English language can now connect to and operate correctly with GSC3000 units. The AutoLoad GSC user interface is displayed in English language regardless of the Windows language setting.
